Mirror Chain

Steel mirror chain, nickel plated - for when you need that added hanger strength. This quality steel mirror chain is very strong and has a maximum weight of 30kgs. It is finished in zinc and has 20mts on a roll.

It will certainly add value to your mirrors or larger frames.
MIRRORCHAIN Mirror chain zinc coated 20mts a roll

Surflon Wire

Surflon®

| | | |
|-----------|--|------|
| WIRESUF14 | 14kg Surflon Wire, cord stainless steel wire to be used with crimps 333mt #2 | 14kg |
| WIRESUF18 | 18kg Surflon Wire, cord stainless steel wire to be used with crimps 333mt #3 | 18kg |
| WIRESUF27 | 27kg Surflon Wire, cord stainless steel wire to be used with crimps 333mt #4 | 27kg |
| WIRESUF48 | 48kg Surflon Wire, cord stainless steel wire to be used with crimps 333mt #7 | 48kg |

Suflon Wire System Instructions

Step #1: Feed Surflon Wire through the properly sized sleeve and hardware.

Step #2: Pass the wire back through the sleeve.

Step #3: The standard procedure is to pass the wire through the sleeve twice, but you can slip the wire through a third time if you prefer.

Step #4: Next, firmly crimp the sleeve and wire together using our special crimping pliers. We recommend making two side-by-side crimps on each sleeve.

Step #5: The sleeve and crimp are now secure. To finish the job, repeat this procedure on the opposite side of the frame.

Crimping Sleeves for Suflon Wire

Nickel-Plated Crimping Sleeves are slipped over Surflon wire and then secured with Crimping Pliers to fasten wire quickly to change D RINGS.

| Code | Use with wire | Sleeves / Bag |
|-------|---------------|---------------|
| 06S1M | WIRESUF14 #2 | 1000 / bag |
| | WIRESUF18 #3 | 1000 / bag |
| 06M1M | WIRESUF27 #4 | 1000 / bag |
| 06L1M | WIRESUF48 #7 | 1000 / bag |

PLIERSCRIMP

Crimping Pliers for Suflon Wire 8-1/2" Deluxe Crimping Pliers are used to fasten Crimping over Suflon Wire.

CRIMPING GUN

Wire Crimp Tool is an air-driven tool that automatically remove feeds rings to crimp together picture framing wire quickly and safely. It saves wire because no twisting of ends is required. A 10-foot polyurethane (coiled) hose is included with crimp gun purchase

WR-1

Wire crimp for crimping gun. 13,000 in a box

WIRECADDY

The new Wire Caddy Support makes spools of Wire easily dispensable and portable.

Bumpers

Bumpers are great to use on the back of your frame as they protect your wall from damage from the frame rubbing against it. Diameter is 15mm x 3mm thick. They also allow air to circulate and prevent build up of mould. It also adds a more finished look to your custom framing.

PICTURE RAIL HOOKS BRASS moulding hooks

Made in USA

PICTURE PLATE Brass plated picture plate

Made in USA

Hand held poncher

The puncher is pushed into wooden mouldings to create a pilot hole ready to accept installation of screw or screw eye. The tip is hardened to be strong enough to push holes into hardwood as well as softwood. No mess of wood chips is created.

PUNCHER Made in USA

Ezybar Made in USA

Designed to handle large and heavy frames

Made from extruded aluminium and have pre drilled holes every 100mm to make it easy to mount on the wall and find studs. All lengths are 1.8mts long. Available in 3 sizes

BARZB1-72 1.8mt hanging bar small upto 16kgs
1.02mm thickness

BARZB2-72 1.8mt hanging bar medium upto 36kgs
1.25mm thickness

BARZB3-72 1.8mt hanging bar large more than 36kgs
2.03mm thickness

TWIRLER

The easiest way to insert screw eyes in a frame is in four easy steps

1. Make pilot hole with Twirler
2. Put screw eye in pilot
3. Put twirler in screw eye and turn
4. Twirl until tight

SCRATCHAWL

Use for starting holes for screws and nails

Screws Self tapping

High quality self tapping screws

Now you can hang your art the way galleries do.

This new system is designed for home and office use. It's very unobtrusive system based on a very slim track which is designed to butt up against your ceiling or cornice where its barely visible.

How does it work?

The track is fitted to the wall using our nylon 'wall anchors', you butt them up against ceiling and crew them in place. The track then spans onto the wall anchors. Next you fit the hangers into the track and then fit the hooks onto the hangers. There's a choice of clear Tape or Stainless Cable Hangers and a choice of hooks. Gallery Systems have been designing and making hanging systems in Australia for twenty years and exporting to countries around the world.

The Gallery Lighting System

Low voltage light wands lock onto the same track that hangs your art. The light wands simply lock onto the track at any point and light up

CLEANING

3m Scotch brite high

Performance cleaning cloth size is 320mm x 300. These cloths are great for cleaning glass and in fact can polish most surfaces. They are designed in a way that absorbs grime even without using harsh chemicals. They also leave a streak free and lint free surface, the cloth can be washed and reused many times.

3HICLOTH

Kimberly clark work horse rags wypall

The premium clean wipe to help you with your cleaning jobs, leaving your glass very clean. Colour: white. Dimensions: 32x5cm x 42cm. Quantity per pack: 150 wipers. HYDROKNIT material. Durable, high performance, and fast absorbing material. Perfect for heavy duty jobs.

WYPALL

Hydrowipes

A soft, absorbent and low lint blue coloured cloth. Great for cleaning glass size 380x400mm 100 sheets per box Constructed by a unique hydro-entangling process which uses thousands of high pressure, needle-like jets of water to entangle the fibres into a Sontara fabric made by Dupont. Fully recyclable Cut and Packed in Australia

Tiger Cloth

The tiger cloth is an anti-static, microfibre cloth that has been specifically engineered for cleaning photographic films. The orange cloth has stripes of effective conductive fibres knit every 4mm that dissipate or drain off static charges. The tiger cloth is not wet or "soggy" and exposure to air won't dry it out. The ultra soft cloth is so gentle you'll feel comfortable using it on acrylic. Hundreds of thousands of small pockets in the microfibre cloth aggressively capture the dust and dirt from the Perspex The tiger cloth comes packaged in a zip lock bag.

TIGERCLOTH Size: 250mm x 450mm

Rub Gum Cleaning Pad

Rub gum cleaning pad for cleaning mat boards and linen slips, document cleaning pads contain a super soft grit free powder and are recommended for cleaning dirty or mouldy paper items. Lightly twist pad to release it's powder, then gently rub over the soiled area to absorb both dirt and dust. Long lasting and easy to use.

PADCLEANING

Static Wisk

The kinetronics ANTI STATIC wisk is used for cleaning lenses, films, scanners, cameras, plastics and acrylics. The unique blend of soft natural hair and conductive synthetic fibers plus the conductive nature of construction result in effective static dissipation. Dust and lint are whisked away.

STATIC BRUSH Small antistatic brush
STATIC BRUSH L Large antistatic brush

STATIC GUN

significantly boosts the cleaning power of compressor air by creating a flow of ions that neutralize static charges and release clinging dust

Artglass cloth

art glass has produced a strong and soft microfibre cloth to meet the most discerning framer. Size is 40cm x 40cm Ideal for all types of glass especially for art glass and truvue
CODE :AGCLOTH

Art glass cleaner

Your perfect choice for any type of glass !Amonia free, Leaves no residue, Static free, Non-streaking, 500ml
AGGLASSCLEANER

Antistatic Gloves

The ANTISTATIC gloves, a remarkable blend of soft conductive and synthetic fibers. The conductive gloves suppress the dust collecting electrostatic charges when handling delicate and sensitive static prone materials. Use gloves when handling films, plastics, optics and glass to prevent fingertips and scratching. When soiled the gloves may be washed with a gentle soap or detergent and tumble-dried at the 'warm' setting.
GLOVES ANTISTAT Antistatic Gloves

Cotton Gloves

These cotton gloves will have plenty of uses around the workshop, ideal for handling delicate items like mat boards and fine art and you will think how did I ever do it without them.
Available in 2 sizes: GLOVES COT SML white cotton small gloves
GLOVES COTTON white cotton large gloves

Apron

High quality apron. Designed with heavy duty twill material. Has two pockets and is burgundy in colour and has the aprm logo on there. It is very comfortable and can be adjusted for small to large frame beds. It conveys a professional look that will please your customers.

Glass Gripper Gloves

A cheap and simple way to protect your hands when handling glass. These long lasting rubber gripper gloves are essential for the busy framer.
GLASSGLOVES

Novus Plastic Scratch Remover Made in the USA

White Neutral pH Adhesive

Neutral pH adhesive is used for artistic creations such as collages, adhering mats, objects within a frame and bookbinding. It is not recommended for attaching hinges to art. This PVA formula is pH neutral, has excellent lay flat properties, good open time and is quick setting. It will not become brittle with age and is remoistenable with water.

| Item No. | Description |
|----------|-------------|
| 901-1008 | 8 oz |

Bone Folder

These genuine cattle bone folders are used for making creases or folds on tapes and papers without causing the paper to become shiny. One end pointed, one rounded.

See-Thru Mounting Strips

Lineco See-Thru Mounting Strips are made from conservation quality materials. Clear polyester is bonded to a 2 ply mat with a self-adhesive back. Simply position the artwork and adhere the strips to the mount board. No adhesive touches the art. Accommodates larger art and can be cut to smaller sizes for a particular job. See-Thru strips provide several advantages over corners; a few along the bottom provide full length support, application is easy, the art stays flat, and the strips are applied around the edges. The polyester may be trimmed to hide the strip with borders as small as 1/8".

| Item No. | Size | Qty/Pkg |
|-----------|------|---------|
| L533-4015 | 4" | 60 |

Gummed Linen Hinging Tape

Great for heavy water-colors or collages. The 65/55 thread count, acid-free fabric gives plenty of strength. The high tack neutral pH adhesive sets fast and lays flat.

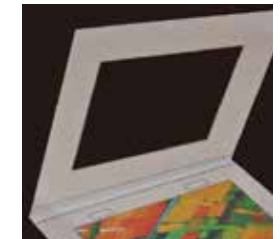

| Item No. | Size |
|-----------|----------------|
| L533-1025 | 1" x 30 ft. |

STATGP12 (12mm)

STATGP18 (18mm)

Stylus Permanent ATG

General purpose acrylic adhesive transfer tape suitable for permanent bonding applications. U.V. stable & pH neutral. ideally suited for use in picture framing, photographic & merchandising industries. Sizes: 6mm, 12mm & 18mm 33m per roll

MADE IN UK

TAPE ASA2305 (12mm)

TAPE ASA2315 (19mm)

Eurotrans ATG

This product is white in colour and available in 2 sizes, has an acrylic adhesive system which allows you to reposition your product if needs be, before you apply pressure for your final bond. 33m per roll.

3m ATG 908 TAPE (12MM)

MADE IN USA

3M's acid free ATG 908 tape has the "neutral" qualities you need to protect and preserve your valuable artwork, delicate documents, cherished photographs and much more. It goes on clear, stays clear and is safe for virtually any project.

TAPE ASAATG12A

MADE IN USA

Asa ATG tape. Very strong acid free ATG tape/12mm x33m per roll

Edging Tape

Designed for edging foamboard and/or gatorboard to give a well finished look where framing is not required

TAPE 530BK20 black paper edging tape 20mm x 25mt on roll

TAPE 530WH20 white paper edging tape 20mm x 25mt on roll

Bostick Glue

GLUE 4279 BOSTICK427920L Bostick/Anchor Weld-4729 for laminating artwork.

GLUE WHITE BOSTICK45020L Bostick/Anchor Weld water based for joining frames.

GLUE BOSTICKDHESIVE Anchor Weld/bostick Adhesive Glue in Yellow and Red packaging

BOSTICKV60 Silicone Glue

Acid free silicon for mounting medals, mirrors or objects.

Rolltaq

Rolltaq 300 adhesive system rolls on a wide 2 1/4 inch adhesive strip. Makes mounting quick and easy. Acid free, non-toxic. Free bottle of adhesive enclosed.

M300 Hand held applicator

JAC Paper Double Sided Adhesive

A solvent based adhesive paper. Used for sticking photographs or prints to board. 762mm x 1000mm

Rubber Roller

Tough black rubber roller with a heavy duty plastic handle. Ideal for mounting down prints, poster or artwork. They come in a 6" (150mm) and 8"(200mm) size

ROLLER 6 150mm (6inch) gluing rubberized roller

ROLLER 8 200mm (8inch) gluing rubberized roller

Glue for hot glue machine

Motorized roller coaters

Automatically warms up to the proper temperature in about 55 minutes. Press the motor switch, feed your print into the turning rollers and the print automatically receives a smooth, even adhesive coating. Runs at 4 seconds per feet. Heat will not effect inkjet or laser jet prints. No daily or monthly maintenance. Available in 36 1/2" coating widths.

MXG11-7

The MX II adhesive is designed to provide unsurpassed adhesion to just about any surface. You only need a very thin coating to obtain a proper bond. After coating the media, the adhesive never dries out, so you can mount at any time. MSII will stick to gastrofoam, sintra, wood, metal and most other surfaces. It is completely safe to use and is non toxic and non hazardous. Refills comes in pellets in dissolvable cello bags. MADE IN USA

Adhesives

Eva Glue

Our EVA glue is of a very high quality. It contains no less than 56% solids. EVA glue, can be rolled, brushed or sprayed on. Its ideal for mounting down, prints, posters and artwork. Suitable for mounting onto photos, boards or paper. EVA can be removed with heat. It has been a favourite with framers for years

EVA 5 EVA Glue 5lts

EVA 20 EVA Glue 20lts

PVA glue

Our PVA glue is a great wood working glue. It is highly concentrated and has over 50% solids

PVA 500 PVA Glue 500ml

PVA 5 PVA Glue 5lts

PVA 20 PVA Glue 20lts

Synthetic Glue

Our synthetic glue was specifically designed to join synthetic mouldings together. This glue dries off very quick and also melts the synthetic fibre together giving a very superior join. It is considered by many the best synthetic moulding in the industry. MADE IN AUSTRALIA

GLUE500ML

Synthetic glue for bonding plastic mouldings 500ml

GLUE 20LT

Synthetic glue for bonding plastic mouldings 20lt

Black Magic 473ml

Black PVA glue

Great for using when joining dark and black mouldings.

HAND TOOLS
Glazing accessories

TOYO® Comfort-Grip Supercutter® With Wide Head has a lightweight, tapered acrylic barrel with contoured finger channels designed to fit all hand sizes. It is among the best in the industry. Known for its long wheel life, this cutter was built to last, and make the cleanest scores in glass cutting today.

Cutter has a precision ground cutting head and an automatic oil-feed system with carbide wheel. The plastic handle also allows you monitor the cutting fluid.

The wide head is great for production cutting while using a straight edge level.

toyohh **Toyo Glass cutter**
This TOYO Pistol-Grip Supercutter® Straight Head Glass Cutter gives you an outstanding control of your cut with its pistol grip handle while hand strain is minimized. It is designed for hours of fatigue-free cutting, and features a self-lubricating head fed by an oil reservoir in the handle. The wide cutting head is great for use with a straight edge for those repeat cuts. Known for its high quality, this cutter is built to last and make the cleanest of cuts. An automatic oil dispensing system keeps the wheel lubricated every time you cut. Cutting wheel hone angle is 140 degrees. These are made in Japan

T225 Hand Operated Tab Driver

The new T225 tab driver is the latest upgrade to one of the world's best selling Manual Tab drivers, with proven reliability at a great price.

- Magazine Feed
- Light Weight Yet Strong Build
- Ideal for Picture Framing or Window Glazing
- Works with any Backing Material
- Used by Hobby or Professional Framers
- Use Flexible or Rigid Tabs

FCT225 tab driver hand operated

This hand operated tool is used to insert flat tabs which neatly secure glass, artwork and backing board into a picture frame. Choose from either flexible or rigid tabs - the flexible tab can be bent up (just using a finger nail) so that the contents of the frame can be easily changed or taken out for cleaning. The rigid tabs are made from a stronger steel and can be used for a more permanent fixing.

Tabs are not included with the driver, please order separately.

Tab Size is 0.4mm x 4.3mm x 15mm

FCT4F flexible tabs for T220/T225/C306/C325 pack of 2500

FCT4R rigid tabs for T220/T225/C306/C325 pack of 2500

Artglass WW™

Artglass WW™ reveals true colors and texture of the art – no green tint or optical distortions. Thanks to its anti-reflective coating, which reduces unwanted reflections to less than 1%, nothing will prevent one from viewing the actual content of the framed item. Moreover Artglass WW™ has a smooth surface that allows for details to emerge unaltered. Artglass WW™ will enlighten the work of every framer – it can be cut and glazed from either side and its coating is scratch resistant and very easy to clean.

This Artglass™ Product Has The Following Features And Benefits:

- NO REFLECTION
- IMPROVED TRANSMISSION
- EASY TO CLEAN AND ABRASION RESISTANT
- NEUTRAL COLORS IN REFLECTION AND NO COLOR SHIFT UNDER AN ANGLE
- EASY TO PROCESS TO YOUR SPECIFICATIONS
- HIGH DURABILITY AND LONG LIFETIME OF THE COATING

Technical Information

THE ART OF PRESERVATION

Rising Museum Boards. The most trusted brand of Museum Boards – Worldwide.
100% Cotton, Acid-Free, Archival, Tree-Free.

MATBOARD

R

Rising

Superior Standards

Rising Museum boards are made with 100% cotton and sets the industry standard that others attempt to meet.

It not only meet, but exceeds the standards set by the Fine Art Trade Guild and the Library of Congress.

Did you know?

Rising is used in the following museums

- The Metropolitan Museum of Art
- Museum of Modern Art
- Solomon R Guggenheim Museum
- The National Gallery
- The Library of Congress
- The Smithsonian Institution
- Museum of Fine Art, Boston
- Isabella Stuart Gardner Museum
- The J. Paul Getty Museum
- Norton Simon Museum
- Los Angeles County Museum Art

The Preservation Qualities of Rising

Your fine art deserves the highest quality matting and mounting materials made today, and so do your customers. The unique methods of manufacturing, content purity and quality make Rising Conservation and Museum Board the ideal choice for lasting performance.

100% Cotton

Cotton is naturally lignin-free. One hundred percent rag is used to produce all Rising Museum Board. The result is a board that provides matchless quality and extraordinary preservation characteristics. Rag papers have survived the test of time.

Acid-Free

Rising Board is made with a minimum pH of 7 and is acid-free. No alum is used in the entire papermaking process.

Adhesive

The single ply sheets are laminated together using an inert adhesive that is 100% acid-free and archival.

Buffering

All Rising boards are buffered with a minimum 3% calcium carbonate (except the Photomount papers, which have no calcium carbonate buffering) as required by the U.S. Library of Congress to protect the board from hostile environmental factors.

Eco-Friendly

The cotton used to manufacture Rising Museum Boards is not from the puffy white flower that we all recognize as cotton, but rather the linters, or byproduct, from the textile industry. Textiles are made using the longest, highest-quality fibers – the rest is discarded. This wasted cotton is salvaged and used to manufacture Rising Museum Boards. Nothing could be more eco-friendly than reusing a product that is considered waste – otherwise this would all end up in the trash.

Pigments

Only the finest pigments are used in the manufacturing process to ensure that all the colours will not bleed, rub off or fade.* The light-fast colours are solid throughout and are fixed into the fiber. Each run of Rising Museum Board is matched to a stored colour sample and controlled using computerized colour measurement and trained colour technicians.

Rigid Quality Control & Consistency

Rising Museum Board is continuously tested during the manufacturing process by both computer and manual controls to ensure conformance to the TAPPI and ASTM specifications required by the archival community.

Superior Cutting

No other board cuts as precisely as Rising to produce an ultra-sharp and clean bevel. To ensure this quality all plies are from the same quality and caliper with consistent density throughout. Rising Museum Boards have been touted by museum and framing galleries worldwide as the best cutting board in the market.

*Due to the use of carbon black dies used to manufacture the Black Rising Museum Boards, there will be some minor scuffing.

As the demand for matting and framing of larger pieces of quality artwork increases framers are finding that they need larger shops. Rising has responded to this demand by expanding the range of products available in its Rising Museum Board line, including oversized, 100 percent cotton finer boards.

Rising Museum Board, which is acid-free, available in a focused colour palette and meets quality standards exceeding those set by the Library of Congress and the Fine Art Trade Guild in the United Kingdom, is now available in both 48" x 72" and 60" x 104" sizes in shades of white and warm white. These new oversized Rising boards come in both 4 ply and 8ply varieties and ship in their own strapped, protected master carton containing 10 sheets each.

The most significant advantage of Rising over any other cotton board are its clean-cutting quality and consistency. If a framer is matting with an 8-ply board, they want the bevel cut to be clean, without any fraying. Framers using Rising reply on this feature. These boards are also clean. If you're framing a piece of art, the one thing that can ruin the mat is a small speck or dent on the surface Rising Museum Boards are speck and dirt free.

Rising paper is currently the only company offering 60"x104" oversized, 100-percent cotton museum boards, which allow framers greater capabilities to work with larger pieces of artwork.

NEW! Rising Conservation Core

Rising Conservation Board combines the permanence of our Rising Museum Board with the affordability of a wood pulp board. These acid and lignin-free boards are suitable for both fine art and photographic pieces. Rising Conservation Board is relatively inexpensive and designed for extended longevity.

Rising cuts the cleanest bevels with no feathering or blade drag; the surface is level with a slight vellum surface (not smooth) so as not to compete with artwork being matted and framed.

The surface is not hard or very smooth making it an excellent choice for all drawing techniques. Fine stationers and invitation converters also find the board quite suitable for letterpress engraving ect

Standard Paper-Faced Foamboards

DESCRIPTION: Paper-faced memory foamboard with proprietary Reveal foam center; it is engineered to retain its thickness during all applicable fabrications. This product is UV stabilized and highly dent and warp resistant.

LINERS: Features smooth bright-white clay coated or black paper. White liners offer a heavier surface coating for superior ink holdout and excellent colour gloss. The coating acts as a barrier to minimize adhesive absorption while maximizing mounting and lamination speeds.

STANDARD SIZES:
Standard thickness range from 5mm
Standard sheet sizes range from 48"x96"

*CUSTOM CUTS,
COATINGS AND
LAMINATES
AVAILABLE*

- APPLICATIONS:**
- Digital Imaging
 - Exhibits
 - Framing
 - Laminating
 - Litho Mounting
 - Painting
 - Photo Laminating
 - P.O.P Displays
 - Screen Printing
 - Sets and Props
 - Signs
 - Vinyl Graphics

Conservation Foamboards

Natural White Acid-Free Conservation Foamboard

DESCRIPTION: Created for conservation mounting and framing, Insite Reveal Acid-Free mounting boards deliver two-sided protection from damaging pollutants and harmful gases. This board is the recommended solution for photographers and artists who require a backing that will add value to high end artwork. Insite Reveal Acid-Free consists of a chemically inert core faced with natural white pH neutral paper liners. Boards are compliant with PAT (Photographic Activity Test) standards. **REVEAL Foam Center:** This chemically inert version of our proprietary REVEAL foam center is highly warp resistant and engineered to retain its thickness during mounting.

LINERS: Our natural white liners offer a PH VALUE ranging from 7.5-9.5 and are buffered with 3-5% calcium carbonate reserve (ASTM IT9.2-191, see. Sec. 5.2) to retain acid free characteristics longer. The liners are 100% High Alpha Cellulose, virgin pulp free from ground wood and/or post consumer materials (ASTM D1030, X5)

- OTHER CHARACTERISTICS ARE:**
- Contains no lignin (TAPPI 236cm-85 KAPPA #5 or less)
 - Free from metallic impurities such as bleach, sulfur and peroxide (TAPPI T406cm-88)
 - Contains no rosin or alum rosin sizing (ASTM D549-88)
 - Is stable under ultraviolet light (TAPPI 452 om-87)

SIZES:
Standard thickness range 5mm
Standard sheets sizes range from 32"x40", 40" x 60" & 48"x96"

- APPLICATIONS:**
- Conservation Framing
 - Dry Mounting

Heavy-Duty Paper-Faced Foamboards

DESCRIPTION: The New Ryno Board® HD features an incredibly rigid, high compressive foam centre. We've combined this with our NEW high tech, brilliant white, double thick liners resulting in one of the highest performance foamboards ever brought to the graphics market. Whether you print direct digital, screen or mount and laminate, the exceptional properties of this NEW Ryno Board® HD will deliver results.

FOAM CENTER: NEW & IMPROVED: With higher density and outstanding compressive strength, this new foam centre creates greater warp resistance and increased dent resistance.

LINERS NEW & IMPROVED: Double thick, brilliant-white surface liners contribute to the overall strength and durability of Ryno Board® HD. The pH neutral surface contains UV inhibitors to reduce yellowing. The liners resist moisture and humidity, which enhances overall warp resistance. Ryno Board® HD provides a flat surface for screen printing, with excellent ink holdout characteristics. **PHYSICAL ATTRIBUTES:** With higher flexural strength with thermal stability, Ryno Board HD® remains stable after mounting and laminating and is cuff resistant. Ryno Board® HD is recommended for signage and graphics application that require a stronger, more durable substrate.

SIZES:
Standard thickness 5mm, standard sheets 60" x 120"

CUSTOM CUTS, COATINGS & LAMINATES AVAILABLE

- APPLICATIONS:**
- Direct Digital Printing
 - Screen Printing
 - Mounting
 - Exhibits
 - Framing
 - P.O.P Displays
 - Sets and Props

InSite® Reveal® Heat Activated

Heat-Activated Foamboard

- Ready to use - No mounting tissues or films needed
 - Designed for use in mechanical or hot vacuum presses and heated roll laminators
 - Neutral pH heat activated A) adhesive
 - Bonds at 71°C in 15 - 45 seconds in a mechanical press; 71°C in 4 minutes in a hot vacuum press;
- Manufactured in the USA

IDEAL FOR:

- Heat tolerant paper
- Newspaper Poster images
- Resin Coated photographs

InSite® Reveal® Heat Activated (HA) foamboard features an extruded polystyrene foamboard with clay coated liners, one of which is a smooth clay-coated paper on one side and neutral pH heat activated (HA) adhesive on the other. Heat activated foamboards are designed for use in mechanical and hot vacuum presses as well as heated roll laminators. Since InSite® HA board comes with a layer of smooth, evenly applied adhesive coating it is ready to use out of the case by eliminating the need for rolled mounting tissues or films. This saves production time and money, whether a single custom mount or large production operation. Available in white 5mm 32x40 & 40x60, 48x96

| code | description | single sheet price | box qty |

| GMHA48965 | heat activated 48x96 5mm | N/A | 25 |

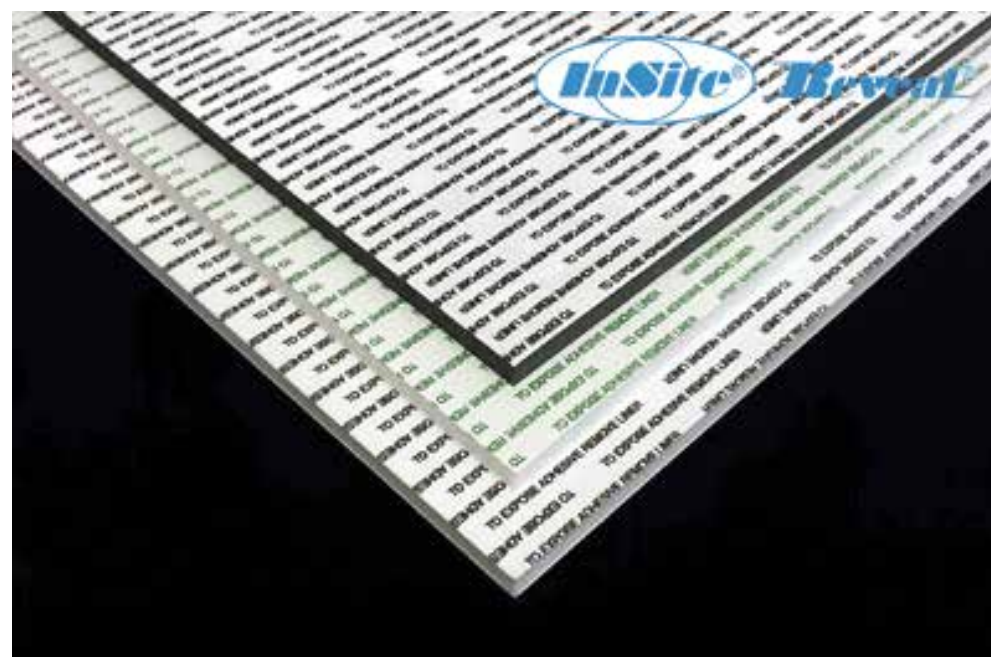

InSite® Reveal® Self Adhesive

InSite Reveal Self Adhesive is an extruded polystyrene foamboard featuring the proprietary Reveal® memory foam centre faced on one side with smooth, clay coated paper in High-Tack (black liner) cold pressure-sensitive adhesive surface on the other covered by a protective release liner. InSite Reveal Self Adhesive High-Tack is an aggressive adhesive that immediately grabs to smooth paper and photo media so correct placement the first time is essential. Once applied, manually burnish, place in cold vacuum press, or feeding through cold rollers—as above—to fully activate the adhesive.

Available white 5mm from 32"x 40", 40"x60" and 48"x 96".

Manual application is quick and easy with simple peel and stick use.

- Remove protective release liner from sized board
- Place liner between print and P-S board allowing a few inches to attach at top edge
- Square to edge of board, and press to hold
- Slip liner down P-S board while following to smooth and prevent trapped air
- Once placed, cover with release liner and firmly adhere

FOAMBOARD

Black acid free foamboard

Acid free white foamboard

Standard quality foam board with multi and general applications. White polystyrene foam core and high quality clay coated matte paper liners on both sides. It is a widely used foam board and suitable for a variety of applications. Premium quality laminated foamboard, durable clay coated for a super smooth surface

Applications: Suitable for short term, indoor fast and easy applications including picture framing, photo mounting, screen printing, laminating and making POP/POS displays, exhibit signs, graphic arts and creative models.

Features: Smooth, flat, stiff, bright white, and pH neutral surface, easy to cut trim and process good for die-cutting and screen printing

Adhesive white foamboard

White polystyrene foam core and plastic coated paper liners on both sides with high tack self-adhesive surface on one side under silconized release paper liner. Excellent performance mounting board low cost and in wide formats

Applications: Photo mounting, picture framing, making exhibit signs and displays

Features: Ready to use once you remove release therefore saving you money, easy to cut, trim and process. Smooth flat, stiff, bright white, and pH neutral surface, permanent acrylate high tack-adhesive.

Repositionable white adhesive foamboard

Removes the annoyance and risk out of your mounting problems they are sturdy, lightweight and easy to cut. These foamboard are coated with a pressure sensitive "cold" adhesive and is sticky to touch.

Repositionable foamboard make mounting easy by eliminating bubbles or imperfections during the mounting process.

Applications: Photo mounting, picture framing, making exhibit signs and displays

Features: No bubbles and easy to mount, during mounting you can remove and reposition. Smooth, flat, stiff bright-white, and pH neutral surface.

Barrier, Drawing & Framing paper

Description

This paper was designed for artists who think and operate on a grand scale. The off-white tone and supple vellum texture make this paper every bit as luxurious as it is functional. Exclusively available in 60" and 72" rolls this grade lends itself to large pieces of work.

Artists are no longer beholden to the size limitation of sheets and can let their imagination roam the length of these 18.28mts rolls.

Aside from its size it's also a popular paper because of its versatility, being suitable for so many different applications:

For conservation framing & matting they are excellent backing papers

- The level, slight textured surface make them ideal for all drawing techniques and because of roll sizes in warm white artists can expand their creativity by working larger.
- The great dimensionally stability make it perfect paper for silkscreen as the rolls can be sheeted or torn to size.
- Its modestly surface sized making it also suitable for offset printing and light wet-media applications as well as all drawing techniques.

Companion to this grade in sheets is Rising Barrier Paper in 32 x 40.

Specifications:

- Made in USA
- Neutral pH
- Lignin Free
- Wide rolls for larger works
- 100% Cotton
- Acid Free
- Chlorine Free
- Specialty Paper

Applications:

- Conservation & Restoration
- Matting & Framing
- Pastel & Charcoal
- Silkscreen

RLBARWH6020 1520mm wide x 18.28mts long 250gsm

RLBARWH7220 1830mm wide x 18.28mts long 250gsm

Silicone Coated Release Board

Seal release board is smooth thin cardboard coated with silicone on both sides. They are extremely durable, reusable and easy to handle. Release Boards protect your artwork and keep your press clear. They are ideal for holding curled materials flat, on oversized work mounted in any heat press. Size is 1016mm x 1524 x 1.8mm
RELEASE B 40x60

Foam Sponge Overlay – 5mm

Used to facilitate the laminating process when using pre-pierced heatseals. Air between the film and print is pressed out through the foam and continued heat and pressure heals up the holes and – on untextured films – results in the pleasing stippled finish traditionally associated with heatsealing.

FOAMSHEETA 1295mmx 2590mm x 5mm thick

FusionÂ® 4000

FusionÂ® 4000 is a pure, ultra-clear, thermal-activated, 100% inert adhesive film that melts during heating, bonds as it cools and is removable when reheated. It can be used to mount litho prints, newsprint, photographs, art papers, engravings, silk, canvas, foils and other papers. It also is ideal for mounting different shapes and sizes. It is a good general purpose mounting film.

Recommended temperature 79C

Available in the following sizes

- FMB1 622mm x 27mts x 75mm
- FMB2 1029mm x 27mts x 75mm
- FMB3 1232mm x 27mts x 75mm

N.T.M.T. Mounting Tissue

A unique development of dry mounting tissue that can be used to mount a wide variety of prints onto a broad range of substrates. It offers good economies for contract framers and other busy mounting houses.

Available in the following sizes

- FMC1 622mm x 25mts x 75mm
- FMC2 1040mm x 25mts x 75mm
- FMC3 1245mm x 25mts x 75mm

BufferMount®

BufferMount™ is the safest mounting option available. It has an acid-free reversible adhesive either side of an alkaline buffered tissue paper and its low operating temperature is an extra safeguard. Archival quality dry mount film.

Recommended temperature 79C

- FMA1 622mm x 27mts x 75mm
- FMA2 1029mm x 27mts x 75mm

Release products

Recommended as cover sheets both to protect artwork from direct contact with heated platens and also to avoid any exposed adhesive sticking to the press.

Two sided Clear silicon Release Film

A siliconised polyester release film that can be used to gloss up Texture Film or for protection during standard mounting processes.

- FMD1 1070mmx 25mts
- FMD2 1300mmx 10mts

One sided release paper

Fairly light one-sided release paper, generally one use only, for protective use when mounting to avoid any excess tissue sticking to the press

- FMF1 1070mm x 10mts

Two sided release paper

Heavy duty two sided siliconised paper offering good protection in all types of presses against damage, creasing and unwanted adhesion.

- FME1 1067mm x 27mts

Double Mitre Saw

Main Characteristics

Pneumatic double mitre sawing machine, for "V-cutting" at 45° degrees, at both ends, in wooden mouldings of any shape and kind (all woods-aluminium covered, etc.). Precise graduate scale to gage at the rabbet of the mitred mouldings, right sliding stop and vertical pneumatic clamps. **With fixed fence.** Maximum operator safety. Sound level: LAeq > 85 dB (A). Arranged to be connected to a suction unit with min. delivery of 700 m³/h for each sawdust exhaust outlet.

| | |
|--------------------------------|--|
| Blades: | 2 circular carbide saw blades \varnothing of 275mm. (10 7/8" diameter) (size bore \varnothing 32 mm.- 1 1/4"). |
| Max. cutting capacity: | width 70mm (2 3/4") height 80mm (3 1/2") |
| Production rate: | about 200 cuts per hour (it varies with mouldings dimensions). |
| Standard electric equipment: | 2 motors of 1,5 Hp each; Voltage 400/440 V; 50/60 Hz; 2800 RPM; 3 Phases. On request machine can be supplied with electric equipment according to local voltage and hertz. In this case electric characteristics change. Electric consumption max. 3 Kw. (single phases on request). |
| Sawdust exhaust outlets: | N. 2, diameter 100 mm. (3 15/16"). |
| Overall dimensions and weight: | width 880 mm. (34 5/8"); length 1130 mm. (44 1/2"); height 1380 mm. (54 3/8"); 240 Kg. (529 lbs.). |

Particularly suitable for woodworking shops and custom picture frames.

Double Mitre Saw

- Two hand control valves for cycle initiation
- 2 saw blades type HM d. 250mm, size bore
- 2 moulding supporting arms
- Adhesive measuring system l=1000mm

Right sliding stop

Horizontal pneumatic clamps

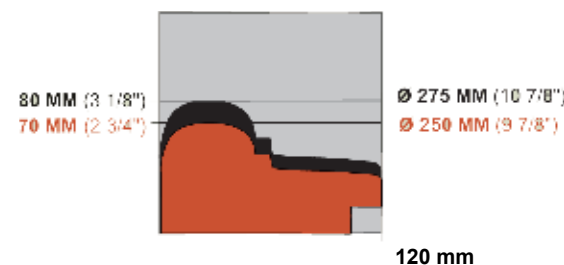

Air/oil filter

Clamping timing device

Possibility to use blades d. 275mm

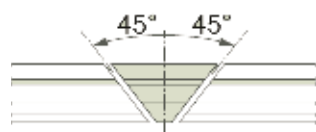

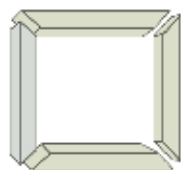

Optional T024

Main Characteristics

Manual sawing machine, with pneumatic horizontal stroke, for "V-cutting" at 45 degrees, at both ends, in mouldings of any shape and kind. Possibility to use saw blades from 250mm (9 7/8") up to 275mm. (10 7/8"), size bore ø 32mm. Precise graduate scale to gage at the rabbet of the mitred mouldings. The horizontal pneumatic clamps and the right sliding stop are standard. With fixed fence. Digital readout as optional (T024). Maximum operator safety. Sound level: LAeq > 80 dB (A). Arranged to be connected to a suction unit with min. delivery of 700m³/h for each sawdust exhaust outlet.

Particularly suitable for medium and large productions of furniture, picture and photo frames in mouldings of small dimensions.

APROCUT 350 Double Mitre Saw

Foot Operated Guillotine

The saw for the custom framer and the volume production factory. The pro-cut saw is purpose designed for the picture framing industry. By a design/service engineer experienced in the industries requirements.

You can select single phase or 3phase factory installation.

CODE: APRO-350

PRICE: POA

140mm Wide Cut

Note: some features of this machine have been overdesigned on purpose to ensure that you will have a robust reliable machine.

Features:

- Apro-cut 350 is a pendulum arm double mitre saw.
- Adjustable blade down feed speed control.
- Four (4) vertical clamps
- clamp pressure only regulator.
- Clamps down for setting only switch.
- Front safety glass viewing window with internal cabinet light.
- Fully shrouded scrap and dust extraction pathways.
- Two hand unison safety system for operator protection.
- Mushroom head light pressure operating palm buttons.
- High fence with thumb grasp control cutout.
- Automatic blade return selector switch.
- Micro adjustment of 45 degree saw angles.
- Regulator moisture trap and lubricator at air
- 1500 infeed and outfeed tables.
- Measuring scales on outfeed table.
- Measuring scales on top of outfeed fence.
- Cabinet open electrical cutout safety switch.

Optional extras:

- Additional clamps for wide moulding cuts up to widths of 150mm.
- 2000mm outfeed table with scales.
- Dust extractor system twin outlet.
- Braked electric motors.

Technical specifications:

- apro-cut 350 double mitre saw
- blade 350mm 30mm bore
- motor single phase or 3 phase as selected
- 1.5 hp @ 2850 rpm.
- Pneumatic feed control system @ 8opsi.
- Pneumatic two hand safety operating system.
- Production potential photo frames 850 cuts/hr.
- Weight 225kg
- dimensions 900x700x1 380mm.
- Work deck height 910mm.
- Dust extraction connection 2x100mm dia
- electric power control on button with panic stop/reset.

APRO-CUT 350

MADE IN AUSTRALIA

Framers Corner Foot Operated Guillotine

CODE: GUILLOF

Specifications

- Max cutting Width 100mm 4"
- Max Cutting Height 160mm 6.5/16"
- Max Length Measurement 1500mm 60"
- Fence swivels from 45 to 90°

Features

Great care has been paid to the production of our knives; the type of steel used, it's preparation and it's finishing. We know that frame makers require perfect mitring and that demands perfect knives. Both standard and reversible knives are available and they will also fit Morso and Hansen guillotines.

All major parts such as the mitring head, main table and measuring table are made from cast iron to ensure long life. The guillotine body is designed to give maximum rigidity and to be pleasing to the eye.

Two rebate supports provide perfect control over the moulding, they can quickly be adjusted to the height of the rebate and will prevent tearing or splintering of the rebate edge.

Most frames require 90 degree corners but for the occasional production of 6 or 8 sided frames, the fences will pivot and can be accurately set at the required angle.

Sharp knives are always dangerous but less so with our Safety Guard which should always be used by lowering it as far as the height of the moulding will allow.

Keeping tidy is easy with our waste chute which is supplied as standard with a heavy duty, reusable polyurethane bag.

Dust Collector

Portable dust extractor with one top filter bag and one bottom collection bag

- 125mm (5") diameter main inlet to fan cowling
- Plastic adaptor on inlet with 2 x 4" inlets
- 2hp single phase motor with switch, cord and plug
- Sheet steel construction of base, cyclone, fan cowling and connecting duct from fan to cyclone drum
- Four strong wheel-type castors on base for mobility
- Needle felt top filter bag to allow free travel of air and retain fine dust
- Disposable bottom collection bag of thick clear plastic
- Motor on fan mounted low down on base of machine, to prevent unit tipping over when moved
- Air through put of approximately 1300 fcm
- Nett weight of complete machine-47kgs

SIMPLE

Joining Machine for Frames

- Loader for staples type PV or NP (depending on your needs, interchangeable)
- Sliding 90° guide to fix staples in two preset positions safety shield
- Automatic working cycle device that prevents marks on the top of the mouldings

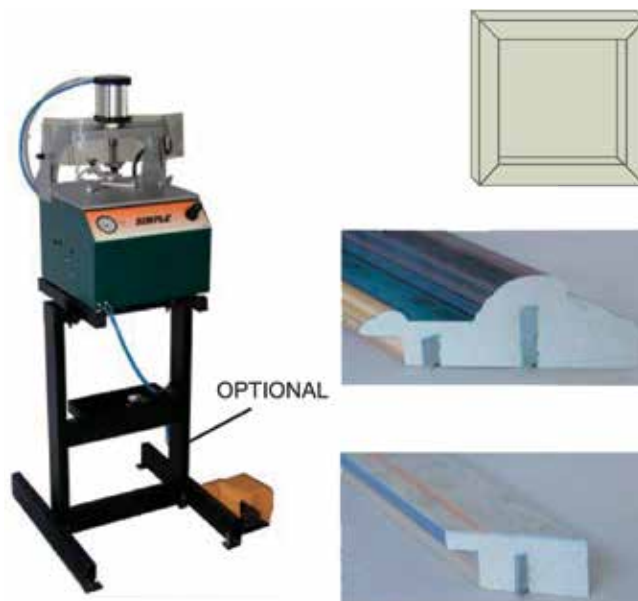

BRSIMPLEA014Z Stand
BRSIMPLEA032R Pv nailing conversion kit
BRSIMPLEA042G Np nail conversion kit

Main Characteristics

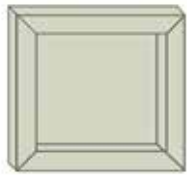

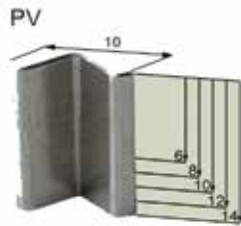

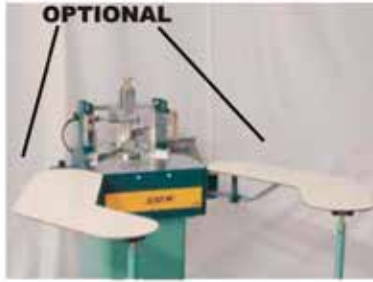

Pneumatic joining top table machine for the assembly of any shape and kind of frames either with four, six or eight sides, even curves. The mitred pieces of mouldings to be joined are connected tightly by a steel nail type PV (for very soft, soft, medium woods and plastic) and type NP (for hard, very hard woods and for compact materials as MDF). The two loaders are interchangeable on the same machine. These nails are in strips and according to the height of mouldings there are different sizes available. Machine equipped with automatic device that prevents marks the top of the moulding during joining operation. It is possible to set nails in 2 or more different position and drive more nails one behind the other into the back of the mouldings. no electric power is required. Easy to use. The machine is capable of joining mouldings of following dimensions: Min. width 10mm(3/8") height 8mm (10/32"); max.width 100mm (3 15/16") height 60mm (2 3/8"). Sound level: LAeq < 74 dB (A).

Compressed air: 6 bars; consumption 6 NI/Cycle and about 120 NI/Min.
Weight: 24 Kg. (53 Lbs).
Overall dimensions: Width 360 mm (14 1/4"); Length 520 mm (20 1/2"); Height 580 mm (22 7/8").

Particularly suitable for bespoke frames, door or furniture manufacturers with small quantities in production.

OPTIONAL

Main Characteristics

Pneumatic joining machine with manual shifting of the loader for any kind and shape of frames, either with four sides. The mitered pieces of mouldings to be joined are connected tightly by a steel nail. Nailing unit for nails type NP (for not too hard and hard woods and compact materials as MDF) or type PV (for very soft, soft, not too hard woods and plastic). The loaders are interchangeable in the same machine. The machine may be used in tilted position that allows the operator to work from machine front or rear side. It is possible to set nails in many different positions and to insert more nails one behind the other in each position. Standard with horizontal clamp and adjustable guide. Sound level: LAeq < 70.1 dB (A).

BREVETTI MOTTA
Sigma 2100

Joining Machine for Frames

- Loader staples type PV or Np (depending on your needs, interchangeable)
- automatic device to set staple up to 10 different positions (adjustable)
- Working cycle completely
- Selectors to set from 1 to 4 staples (one behind the other) in each present position
- automatic horizontal clamp
- adjustable fence
- fence to set at 45 degrees-22,5 degrees
- possibility to memorize up to 520 working cycles
- safety shield
- air-oil filter

Main Characteristics

Electropneumatic joining machine for the assembly of any shape and kind of frames either with four, six or eight sides. The mitered pieces of mouldings to be joined are connected tightly by a steel nail type PV (for very soft, soft and not too hard woods and plastic) or type NP (for hard, very hard wood and MDF). The two loaders are interchangeable on the same machine. These nails are in strips and according to the height of the mouldings there are different sizes available. Possible to insert nails automatically in up to 10 different pre-set positions along the base of the moulding, to stack up to 4 nails in each position and to memorize different working programmes. The special electronic control box can be easily used by the operator to select or modify the working program and to check all movements of the machine. The machine is capable of joining mouldings from 4mm (5/32") in width with PV nails and 7 mm. (9/32") in height up to 120 mm. (4 3/4") in width and 70mm (2 3/4") in height. The horizontal clamps are standard, electronic control with touch colour screen, automatic nails loading, 3 working speed. Sound level: LAeq < 73.1 dB (A).

Production rate: About 250-300 complete frames per hour (it varies with frames dimensions and the number of nails in each corner).

Compressed air: 6 bars; consumption about 40 NI/Cycle

Electric power: 220/240V 1Ph 50/60Hz max. consumption 0,4 Kw.

Overall dimensions and weight: w. 790 mm.(31 1/8"); l. 850 mm.(33 1/2"); h. 1.300 mm.(51 1/8").; 143 Kg.(315 Lbs).

Particularly suitable for furniture, picture and photo frames with medium quantities in production. □

M3 Underpinner The M3

underpinner has a unique two pedal system. The right hand pedal operates the moulding rebate clamp which securely grips the moulding from the front before pinning. When adjusting the fence, to insert a second wedge, the rebate clamp also travels with it, so that the moulding always remains tightly clamped. The left hand pedal has a dual action: Firstly the top pressure clamp is lowered so that the moulding is now clamped in two directions. Secondly the wedge is inserted underneath the moulding. To increase simplicity, a green indicator light illuminates when the wedge has been fully inserted and the operation is finished.

A sliding fence allows for multiple wedges (also known as V nails) to be inserted into the same corner. There is a front and back limit stop, which can be set to keep wedge positions accurately placed. When using tall mouldings the fence can be locked in position to allow wedges to be stacked two on top of each other, therefore two 10mm wedges become a 20mm wedge.

Supplied with two extension tables, L shaped pressure pad, round pressure pad, pedal restrictor for smaller mouldings, adjustable rubber feet and magnetic wedge remover.

The Ultimate Wall Cutter KEENCUT Excalibur 5000

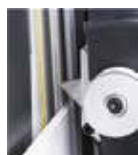

- 5 year comprehensive warranty
- Comes complete - no extras to buy
- Wall mounted or free-standing
- Wide track nylon bearing system
- Fitted counterbalance; less fatigue, accidents and easy loading of materials
- Complete backboard set for support and convenience
- 100% Manufactured in the UK

Telescopic legs adjustable for height to suit the operator & minimise fatigue

Permanent, ultra precise sight line strip

Single cut line for all tools for minimum fuss and maximum accuracy

Unique 5 cutter head with ready mounted integral tools

Excalibur Accessories and Blades:

EXCALIBUR 5000

Keencut EXCALIBUR is a unique cutting machine featuring two cutting heads combining to provide four cutting tools mounted for instant selection. Excalibur's integral counterbalance ensures an easy glide cutting action, prevents damage when loading sheet materials, minimizes operator fatigue and increases production. Excalibur 5000 is second only to the new Keencut SteelTraK and has more advanced features than any competitive vertical cutter. Keencut Excalibur has been continually upgraded since its introduction in 1996, making it ideal for applications where the high performance of the SteelTraK is not required.

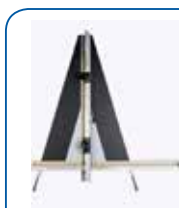

With a cutting capacity of 163 cm, Keencut Excalibur 5000 is equipped to cut Glass 6mm - PVC Foamboard 13mm - Foamcore 13mm- Cardboard - Acrylic (Plexi) 6mm- Xanita 13mm - Polycarbonate - MDF 4mm - and much more without noise, dust or significant debris.

Outstanding features of the Excalibur

Turn & Lock ready mounted tools for instant action

All four blades cut on the same line. One stop setting - One measurement - One outline cursor - No special operator training - No laser shake - Less fatigue - No wasted panels - No mistakes

Complete backboard set for support and convenience

Complete set of vertical and horizontal scales (Imperial and Metric)

Top mounted screw adjusted permanent lock squaring arm

Full length extra-grip clamping system

Transparent outline cursor - renewable - fixed - ultra precise - no laser shake - no doubt and no wasted panels

Telescopic legs adjust for height & minimum fatigue

Simple Left & Right production stops - no need for fiddly colour coding

Universal turret cutting head with automatic blade disengagement at the end of cut

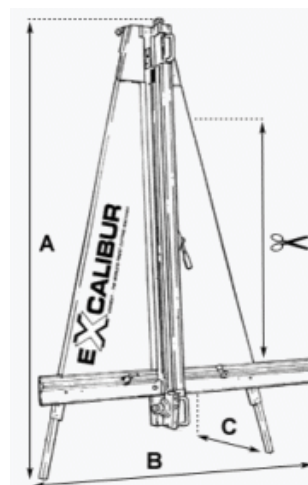

Fully equipped and ready for work with 100 blades included

Accepts standard utility blades

The Ultimate Matt Cutter KEENCUT Ultimat Gold

- 5 year guarantee
- Comfortable to use
- Tough, precise, built to last
- Comes complete- no extras to buy
- Unique roller "lift and hold" system raises or lowers the cutter bar
- Made in England

Unique patented micro stop adjusters fitted to the 'start of cut' 'end of cut' and 'margin guide' stops allows you to dial out overcuts or undercuts in seconds.

Precision cutting head, has sculpted shape for comfort with Ball and thrust bearings for continuous cutting accuracy. Twin blade head for bevel cutting as well as vertical cutting.

Keencut Ultimat Gold is the most technically advanced, versatile and easy to use manual Mat Cutter in the world. Ultimat Gold is built to exacting standards and precision engineered to meet the requirements of the most skilled and creative picture framers year after year.

Keencut Ultimat Gold Bench Mounted Mat Cutter combines precision with durability; built to last and exceptionally comfortable to use. Ultimat Gold's integrated extra-wide baseboard with pre-installed grid markings is constructed from anodised aluminium, meaning it will not warp, bend or break over time. The Ultimat Gold Cutter Head is fully adjustable, ensuring no sideways play, and the unique and ingenious production stops guarantee that when used, there will be zero overcuts or undercuts.

Ultimat Gold is fully adaptable, accepting a range of readily available, easy-fit optional parts; making it the most versatile mat cutter in the world.

Outstanding features of the Ultimat Gold

The precision cutting head has a sculpted shape for comfort and features ball and thrust bearings for superb precision.

The bevel head has an ejector for quick blade changing and the vertical head can be locked in position to allow easy cutting of the thickest boards

Unique 'clip on' margin guide and squaring arm allows for easy removal when not in use; no tools required *maximum margin width is 19cm (7.5")

Unique roller 'lift and hold' system raises or lowers the cutter bar and frees both hands

75cm (30") clip on mat guide extension kit complete with 60cm support arms

Adjustable space age bearings and slideway feature a silent-glide action & 20 Year Guarantee

Unique sliding gauge pinpoints blade entry and exit spot for exact freehand cutting

Unique patented micro stop adjusters fitted to the 'start of cut,' 'end of cut' and 'margin guide' stops allow you to dial out overcuts or undercuts in seconds

Fletcher Matcutters

AVAILABLE IN TWO SIZES
F-220048" - 48"
F-220060" - 60"

PRICE: POA

Unique Performance Features

- Manual mat cutting for sizing cuts, cutting bevels and producing V-Grooves.
- Cuts 4-ply mat board
- Straight line cutting of foamboard up to 1/2" (13mm)
- Maximum material cutting thickness: 1/2" (13mm), 90° cut only
- Available machine sizes: 48" (1.2m) and 60" (1.5m)

Our Fletcher 2200 Mat Cutter provides specialty cutting for creating bevels & producing V-Grooves in matboard used for picture framing and art/graphics retail matting .

- (10) Utility Blades

3100 Technical Specs CODE: F-3100 PRICE: POA

Cutting Head: Rides on high tensile strength steel, hard chrome plated and polished, resulting in smoother gliding action for consistent cutting head performance and longevity.

Vertical Bars: Rails do not bend or flex during the cutting process for straight, accurate cutting over the entire substrate height.

Material Clamping System: Patented lever-type clamping system that secures in place various substrate heights up to 63" (160cm) to prevent buckling and shifting of material during the cutting process.

Interchangeable Cutting Head Technology

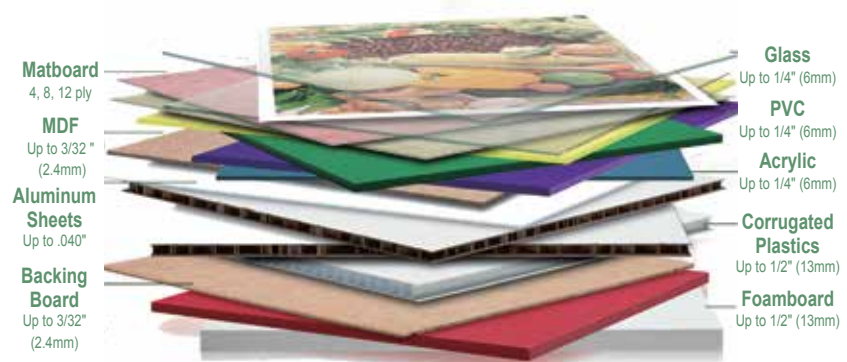

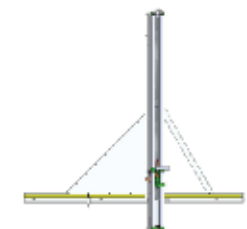

Score & Break-out feature for glass & acrylic

Unique Performance Features F3100 Purchase Package-# 04-715

ULTIMAT FUTURA

UNIQUE, VERSATILE, EFFORTLESS

- Cutting head mounted on Roller Bearings, running on steel tracks for smooth, precise cutting
- Ergonomically designed to be suitable for left or right-handed users
- Designed to cut the latest and future mountboard
- Roller Lift & Hold system for one handed operation
- Easy to change blade cartridges

The Ultimat Futura: Unique versatility, advanced design and ultra precision manual matcutting to a new level of accurate, fast operation on modern matboards of every type and thickness. The Ultimat Futura matcutter features an all-new cutting head with built-in self aligning ball bearing rollers operating on twin steel tracks to deliver a sliding action that is smooth, precise and with no discernible friction under load. Maximum operator effort is transmitted to the blade to put the cutting of even 8ply mountboard within capability of every framer. Interchangeable magnetic blade holders on the Ultimat Futura make changing blades and holder for different depths of cut a simple, fast operation so necessary for the many different types of work that are processes in every busy framing workshop.

Features of the Ultimat Futura include the easy to use one-handed roller 'lift and hold' system, patented micro-stop adjuster, fitted to 'start the cut', 'end of cut' and 'margin guide' stops and uniquely designed baseplate to accept a range of readily available accessories. The new high performance slideway and head system has been designed in response to both the latest mountboard developments and those anticipated in the future. The introduction of the Ultimat Futura will not only maintain but greatly increase the Keencut world leadership in manual matcutter design.

STRETCHER

GALLERY

STRETCHER-150

CODE: CANSTRET150

PRICE: POA

Description:

Fully pneumatic canvas stretching machine that mounts to the side of a typical workbench to provide a seamless work surface. In this position the operator can easily manoeuvre the artwork, make folds in-place and apply staples from the front.

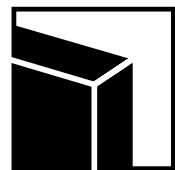

Physical Dimensions: 1524mm x 304.8mm x 82.55mm
Weight: 18.2 kg

Operating Parameters:

Max. Sized Artwork: 1524mm X 1524mm
Min. Excess Canvas: 38.1mm
Min. Stretcher Width: 19.05mm
Max. Stretcher Width: 63.5mm
Max. Supply Air: 8.2 bar
Min. Supply Air: 6.2 bar

Proposed Market:

The 150 model appeals to Commercial Printers, Custom Frame Shops, Print on Demand Services and to anyone with 66" wide inkjet printers and smaller.

GALLERY

STRETCHER-240

CODE: CANSTRET240

PRICE: POA

Description:

Fully pneumatic canvas stretching machine that is designed to be mounted on the side of a typical workbench. This model is not easily transported and should be permanently installed. The 240 model shares the same basic features as the 150 model with one notable exception, the controls are located toward the center of the machine. An extra set of stretcher plates are included.

Physical Dimensions: 2438.4mm x 304.8mm x 82.55mm
Weight: 31.8kg

Operating Parameters:

Max. Sized Artwork: 2438.4mm X 2438.4mm
Min. Sized Artwork: 203.2mm X 254mm
Min. Excess Canvas: 38.1mm
Min. Stretcher Width: 19.05mm
Max. Stretcher Width: 63.5mm
Max. Supply Air: 8.2 bar
Min. Supply Air: 6.2 bar

Proposed Market:

The 240 model appeals to the graphic display houses, sign companies and anyone with the need to print over-sized art on canvas.

CUTTING & SCORING IS MORE EFFICIENT THAN EVER.

ECLIPSE™ AIRGLIDE

The **ECLIPSE™ AIRGLIDE** is ideal for use with 152 x 244cm sheets and features a 65" vertical capacity. Cutting and clamping mechanisms both operate on standard compressed air*.

The Eclipse™ AirGlide includes a Blade cartridge plus two speed settings for consistent quality with reduced fatigue. Both floor stand and wall mounting options are provided to fit your space. Optional Acrylic, Glass, and Composite cartridges are available to efficiently cut the variety of substrates you use most.

YOUR PURCHASE INCLUDES:

- ✓ **AIRGLIDE PNEUMATIC MATERIAL CUTTER**
▪ AirGlide Dimensions: 259cm Height x 250cm Width
- ✓ **FLOOR STAND & WALL MOUNT BRACKETS**
- ✓ **QUICK-CHANGE BLADE CARTRIDGE & HOLDER**
▪ Blade Cartridge + Box of 50 Blades
- ✓ **2-YEAR WARRANTY ON PMC PARTS**
- ✓ **MANUFACTURER TECHNICAL SUPPORT**

OPTIONAL ADD-ONS:

- AirGlide Acrylic Cartridge
- AirGlide Glass Cartridge
- AirGlide Composite Cartridge

| MATERIAL | THICKNESS | CARTRIDGE |

The cutting edge in matcutting

Zund mount cutting systems are utilized throughout the custom framing and production sections of the industry. Mount Maker software, features standard design and rectangle/oval mounts, to free-form design of shapes including scanned images, through to nesting on the mount board for maximum yield.

With the ability to cut mount board up to a maximum of 5mm thickness the Zund standard tooling includes straight (trim) cutting, true 45 degree bevel cutting, v-grooving and a pen insert for key lines, text and general mount decoration.

Add a creasing tool and presentation boxes or corner protectors can be designed and cut on the Zund mount cutter. Oscillating tools can be utilised for foam core mounts to the thickness of 10mm.

Additional possibilities of camera recognition systems for cutting re-printed mount board in perfect registration for that unique coloured, patterned, text or corporate logo mount. Can be retrofitted, thus illustrating the modular, flexible approach of the Zund cutting system.

Available in these popular sizes

M800 : 1300mm x 800mm

M1600 : 1600mm x 1330mm

Print Mounting and Lamination

AMOPTHER

NEW!! Press Temperature Thermometer

A hand-held thermometer used to accurately measure the temperature of your press or laminator.

AMOPER

NEW!! Press Roll Cleaner

This rubber-based erasure is useful for cleaning and removing tough residue left on the press rollers from general use.

AMOPKIT

AMS Cleaning Kit for Lamination and Mounting Presses

This system is for Cleaning your Proseal, Roller Mounters and Laminators. The outer sides of the machine may be cleaned with a lint free cloth, lightly dampened with a mild soap and water solution. Do not use spray-on cleaners. Do not immerse any part of the machine in water or other liquids. Clean the Rollers with Poly-Off Cleaners & Erasure as follows:

1. Remove Poly-Off kit from Packaging.
2. Place Latex gloves over hands for protection.
3. Apply to warm rollers NOT HOT!!
4. Pour required amount of Poly-Off to sponge and/or abrasive brush.
5. Scrub affected area until all debris has loosened.
6. Wipe clean with towel or cloth material.
7. Place Poly-Off kit back in packaging for storage.

AMS KOOL Cold Roller Lamination and Mounting Press

AMS is pleased to introduce the next generation model cold roller lamination and mounting press. A single operator can easily mount and laminate artwork with this press. The new KOOL cold laminator is inexpensive while providing the essential features found on more expensive models including:

- Top and bottom nip rollers covered with hard silicone
- Rigid steel cores in top roller for better pressure
- Heavy-duty motor
- Automatic take-up shaft
- Spring-loaded top roller
- Rugged steel and aluminum construction
- Accommodates boards up to 1/2" (1.3 cm) thick (can be made for 1" (2.5 cm) thick boards upon request)
- Available widths: 25" (63.5 cm), 38" (96.5 cm), 55" (139.7 cm) and 65" (165.1 cm)
- OEM product that is manufactured in the U.S.A

Optional stand and footswitch for hands-free control available.

With the AMS KOOL press, you can laminate media from long wraps down to smaller inkjet photos.

Even if you are using solvent or archival inks, laminating offers important benefits.

- Provides scratch resistance and UV protection
- protects from chemicals, dirt and fingerprints
- keeps your print looking great during its entire life
- extends the life of the print
- Prints look more vibrant
- Cold laminated have excellent clarity
- Variety of finishes-gloss, luster, matte

Machine can be placed on workspace table or on our stand.

Optional Stand has four castors providing mobility and saving table space.

AMS 42-inch Heavy-duty Professional Heated Roller Lamination and Mounting Press

This heavy-duty, industrial-strength lamination and mounting machine seals and/or laminates wide format print. It is designed for "all-in-one" laminating and is ideal for wide-format digital output. This machine would be a perfect fit in quick print shops, graphics houses, service bureaus and more.

Acceptable films for this machine are made of polyester, polypropylene and nylon. It is designed for mounting and laminating low temperature and thermal films. Turn off the heat function when using pressure-sensitive films. For heated sealing, please see our assortment of heat-assist laminates and dry mounting tissue. For cold pressure sealing with heat function turned off, please see our assortment of cold lamination and mounting films.

Speed Control & FWD/REV

Temperature Control

Nip & Pull Roller Adjustment

Easy to use

- Mounter, Laminator, Encapsulator
- Fast set-up and easy operation
- Roller Lift for easy film loading
- In-line slitter for trimming during lamination (optional)
- Variable roller pressure
- Accepts low-melt, thermal and pressure sensitive films
- Accommodates substrates up to a 1/2" (.064mm) thick
- Release liner rewind (optional)

Heavy Duty

- Designed for mounting and laminating low-temp, thermal and pressure sensitive films
- Heated rollers for a variety of films
- Heavy-duty forward/reverse variable speed motor
- Sturdy feed-back table with adjustable feed guide
- Heavy-duty top grade silicone rubber rollers
- Heavy-duty chain sprocket drive
- Four high-capacity forced air cooling fans

Operator-friendly

- "Ready" and "wait" lights indicate when the laminator has reached preset temperatures
- Independent upper and lower electronic temperature controls with LED displays
- Spring-loaded adjustable pressure on laminating and pull rollers for smooth, even lamination
- Foot switch allows hands-free operation for guided materials during lamination (optional)
- Auto grip shafts

Applications

- Ink jet prints
- Floor graphics and POP displays
- Signs and trade show applications
- Mouse pads
- Counter mats
- Book covers, dust jackets, yearbooks
- Calendars
- Menus
- Pictures
- Maps
- and much more!

| M3602X | 36.5 inches (91.25 cm) Glue Machine - 240 volt |
| G128S2 | 5 litre glue for glue machine cold roller glue applications |

Adhesive:

Made from a unique formula and provides the following benefits:

- Smooth, even coating
- Strongest adhesion possible
- Will not yellow over time
- Acid free, non toxic
- Stays fresh in coasters for a long time eliminating daily clean-up

Note: one surface must be porous to get a permanent bond i.e photo paper (no porous) can be mounted to foamboard, mat board, paper, cardboard etc which are all porous surface, but not to plastic. If you are mounting a print with a porous and non porous surfaces including plastic, wood and metal.

GREAT FOR:

- Mounting photos posters & artwork
- Making jigsaw puzzles
- Adhering labels
- Making custom greeting cards & invitations

HOT GLUE MACHINE

| Code | Description |
|---------|---|
| MX362 | 24.5 inch (61.25cm) Glue Machine with Plastic Casing - 240 volt |
| MXG11-7 | One refill cello bags for glue machine |

Glue Roller Machines are built from steel and aluminium with a heavy-duty motor designed for continuous use. First, run print through glue roller machine to apply glue. Next, lay print onto board as desired and smooth. Lastly, run print on board together through the pressure roller secure adhesion.

ABOUT THE SYSTEM

GREAT FOR MOUNTING:

- Wide format inkjet prints to boards (displays, posters, signage)
- Fine art prints
- Photos
- Presentations
- Photo albums
- Puzzles and board games
- Book covers
- Labels
- Trading cards

- Suitable for custom framing as well as production
- Combines motorized roller coaters with unique hot melt adhesive which provides the following benefits:
 - Strongest bond possible
 - Sticks permanently to just about any surface including plastic, wood and metal
 - Glue is repositionable for five minutes after gluing therefore avoids costly mistakes
 - Costs only 4 cents per sq. ft
 - Applies a very thin, smooth coating (absolutely no bumps)
 - Motorized roller coaters apply the coating at 12 seconds per metre
 - Adhesive coating will not lose its tack, so you can mount at any time
 - Non toxic and non hazardous
 - Adhesive will not transfer to your fingers so it is clean to work with
 - Coaters require no maintenance. Just turn off power and you are done

WORKSTATION

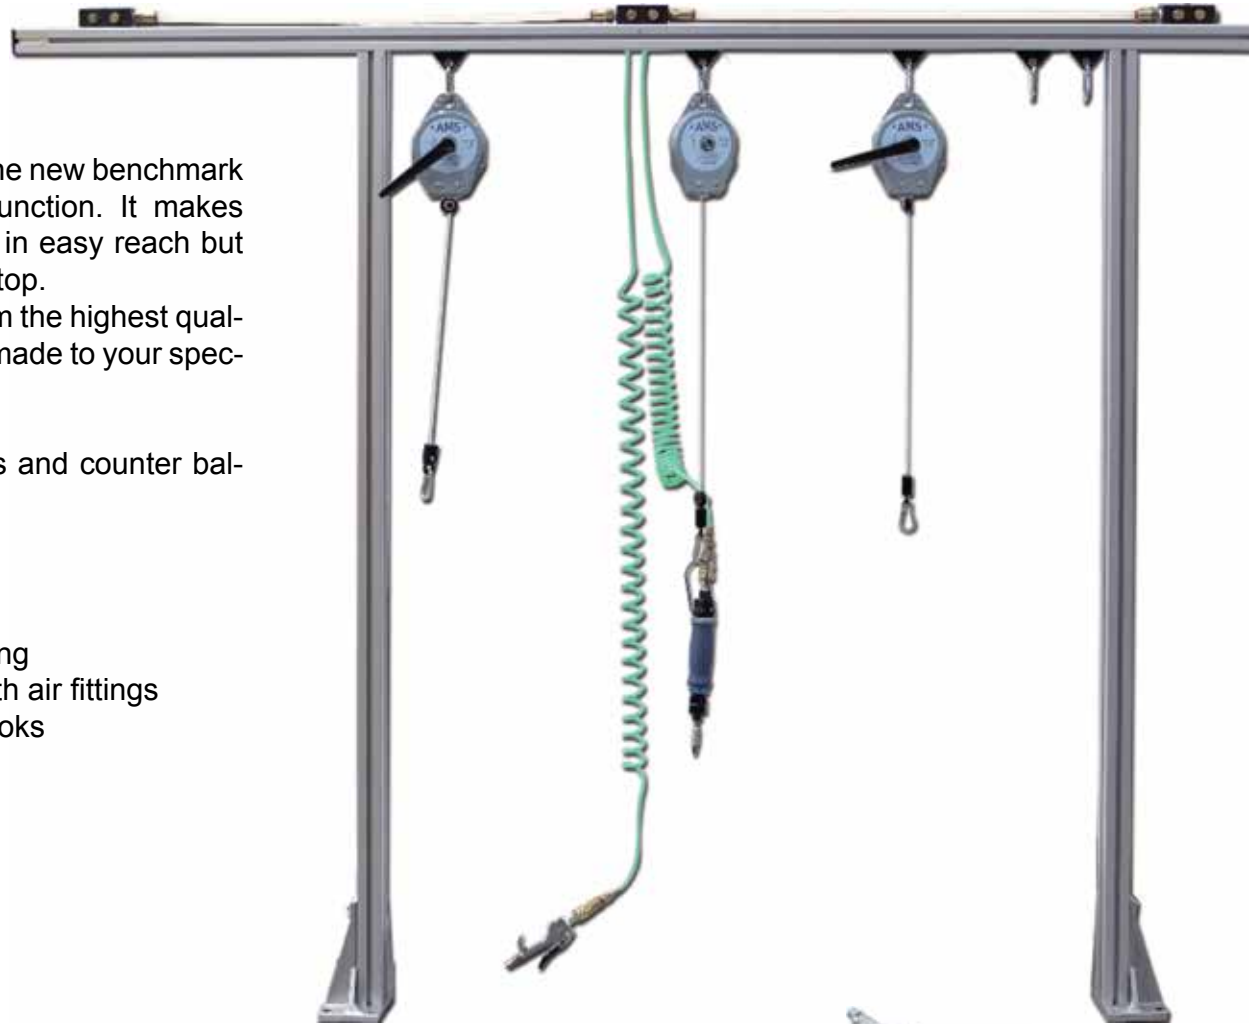

Production workstation are the new benchmark in ergonomic design and function. It makes sense to have all your tools in easy reach but eliminates a cluttered benchtop.

Made entirely in the USA from the highest quality. Each stand can be tailor made to your specifications

Please note: air-tools, hoses and counter balances are sold separately.

Start up kit

- 2 cast legs
- 2 aluminium uprights 1.2m long
- 1 aluminium top rail 2.4m with air fittings
- 5 runners and 5 carabine hooks

Only the highest quality air fitting and connectors are used throughout.

Strong cast alloy legs to either clamp or bolt the workstation securely to your bench.

Ultra smooth runners with strong carabine fittings.

Work Station Accessories

Torque Driver is the most advanced air driver on the market. Having a push to start trigger allows one hand operations with adjustable torque stops for precise setting of screws. Ruggedly constructed for years of trouble free service. Now with a speciality modified torque speed specifically for working with picture frames
Code: 93PSD45

Counter Balances, If you've ever wanted to have your tool within arms reach without cluttering up your work station then we have the solution. These counter balancer allows you to retract your tools overhead. Each balancers hanging weight can be adjusted to suit the tool weight. Currently stocking 1-2kg weight range with weight ranges 2-4kg or 3-6kg are available by special order.
Code: 93B045

Flexcoil Polyurethane Air Hose (Self Storing) cannot be kinked or scraped. This lightweight, yet durable hose will withstand the roigors while maintaining its resiliency over a long period of time. Swivel fitting is provided with thread seal.
Code: GREEN HOSE

Air Dusters. Tough all metal design that ergonomically fits the palm of your hand for precise control
Code: 9360B

11-SLEEVE Slotted power bit with finder sleeve

BIT2XS 1/4 inch hex phillips bit #2 Short

MAG-HD Premium magnetic bit holder, one piece stainless steel.

SPEEDVAC 'COLD MOUNT' VACUUM PRESS

Made in
AUSTRALIA

CODE: VP6040
64" x 44" press including pump

Optional extras
VPstand to suit 64' x 44' press

Vacuum pump:
1/3 HP 4CFM oil pump.

VACUUM PUMP 1/3 HP
4 CFM LONG NOSE
OIL PUMP TW-2A

VACUUM PUMP

The Speedvac vacuum press has been engineered and manufactured to provide years of constant and reliable operation. Each feature and component has undergone meticulous performance evaluation and field trials to refine a product of excellence. Using our vacuum pump the Speedvac is capable of attaining an evenly distributed pressure of 2200lbs over a 13" x 13" board. Varied sizes of vacuum presses can be made to order.

Controls

On/Off pump power supply switch
Adjustable process time control
(Range 10 sec ... 10 mm)
Vacuum release valve
Vacuum Gauge

SPECS:
62" 42" Internal
66" 46" External
5 3/8" Overall Depth

Features

Welding steel base chassis lid
High tensile hinges well secured
Gas operated springs fitted for
well balanced lid operation
Blanket made from neoprene
6mm Glass fitted to glass Power
coated long life surface finish All
controls surface mounted on front
panel Special ventlon felt panel
to enhance performance Blanket
mounted on separate removable
chassis for easy servicing

Epson & Canon Media

We have available two types of media for Epson & Canon wide format printers.

*260 gsm satin 44" wide (111cm) 30mt per roll
Code: ROLL 111-30M-

*260gsm matte finish (150cm) 30 meters long
Code: ROLL 150-30M

The Expression® line of vacuum presses from D&K offers guaranteed quality results every time for mounting, laminating, and texturing projects. Vacuum presses allow users to simultaneously process multiple pieces of artwork with varying sizes and thicknesses. The 4468H Vacuum Press is the preferred choice for framing professionals with user-friendly touch pad controls with six factory-installed programs for processing common applications. The 4468H Vacuum Press also includes an Expression® cutting mat that allows you to use the top of the press as a working surface.

PRICE POA

Features Code: HVP4468

- Touch-pad controls.
- Easy to read digital display.
- Programmable system controller with six preset programs.
- End-of-cycle signal.
- Space-saving work surface.
- Maintenance-free vacuum pump.

Features

- Working Capacity: 112cm x 173cm x 2.5cm
- Dimensions: 183cm x 144cm x 17cm
- Net Weight: 93kg
- Shipping Weight: 327kg
- Power: 240V AC, 15 Amps
- Electrical Requirements: 4-wire, single phase NEMA L14-20 plug
- Pressure: 13 psi
- Floor Stand: Optional – 19kg

MADE IN USA

The Expression® line of vacuum presses from D&K offers guaranteed quality results every time for mounting, laminating, and texturing projects. Vacuum presses allow users to simultaneously process multiple pieces of artwork with varying sizes and thicknesses. The 5298H Vacuum Press includes a built-in stand and user-friendly touch pad controls with six factory-installed programs for processing common applications. The 5298H Vacuum Press also includes an Expression® cutting mat that allows you to use the top of the press as a working surface.

CHOP SERVICE

APM offers a chop service on all our mouldings and aluminum within approximately 48 hours.

A chop service has many benefits

- No wastage
- No storage
- No surplus stock
- Hassle free and convenient
- Saves labour cost

To order

Please fax to 03 9387 0455 or

Email christina@apm-mouldings.com.au

Or call Lee 1300 733 018

Terms and Conditions

TERMS AND CONDITIONS OF SALE

Applicable to and forming part of any contract for goods manufactured, sold or supplied or for work and labour done by Chamton Pty Ltd (hereunder called "Chamton") for the Customer named on the face hereof (hereunder called "the Customer") and applicable to the whole or any executed part of an order.

1. PRICE

Unless otherwise specified in writing by Chamton to the Customer;

- Prices in respect of an order are those prices current at the date of delivery
- All prices are subject to change within notice.

2. PAYMENT

Unless otherwise specified in writing by Chamton to the Customer;

- Payment for any goods manufactured, sold or supplied (hereinafter called "the Goods") or for work and labour done by Chamton to or for the Customer shall be Made within thirty (30) days after the delivery of the invoice to the Customer.
- Interest shall accrue and be payable on all overdue accounts at the rate equal to Two and half percent (2.5%) above the rate fixed under section 2 of the Penalty Interest Rates Act 1983 at the time default.
- Chamton reserves the right to withhold delivery of the Goods if the Customer is in Any way in breach of these Terms and Conditions of Sale.

3. ACCEPTANCE

Chamton reserves the right to delivery by instalments and each instalment shall be deemed to be sold under separate contract. Failure to deliver any instalments shall not entitle the Customer to repudiate the contract. Rejection of any instalment does not authorize rejection of any other instalment. Each instalment constitutes a separate contract without prejudice to the main contract.

The provision of Division 3 of the Goods Act 1958 (as amended) shall apply to this contract while not inconsistent herewith. In the event of any such inconsistency the terms of this contract shall prevail.

4. QUANTITY

The quantity of Goods ordered by the Customer will be supplied as near as

Practicable by Chamton and Chamton shall deliver and the Customer shall accept the Actual quantity of Goods delivered against this contract up to a margin of 10 percent More or less or to the nearest pack lot whichever is the larger.

5. LIMITATION OF LIABILITY

If for any cause or reason beyond the control of Chamton (including but not limited to fire, flood, earthquake, other natural disasters or Act of God, war, hostilities or threat of war or hostilities, strikes, lockouts, industrial disputes, Governmental control whether by intervention, legislation or regulation or by Government authority or any restriction of prohibition or contingencies hindering or preventing delivery) Chamton is delayed or impeded in fulfilling its obligation under this contract, then Chamton, upon notifying the Customer, may suspend further performance of the contract until performance of Chamton's obligations under the contract can be recommended, or if Chamton is so delayed or impeded or is frustrated or prevented from completing the contract for a continuous period of two (2) months the contract may be terminated by Chamton, and the contract shall become voidable at Chamton's option, and the Customer shall in the instance of Goods manufactured or supplied to meet the Customer's particular requirements and, notwithstanding such termination and/or rendering void the order, pay for any instalments and individual items if wholly manufactured at the price for same pursuant to this contract or if partially manufactured at a pro-rata adjustment of the price.

Without limiting the foregoing delivery dates quoted on behalf of Chamton are estimates and approximate only although Chamton will use reasonable endeavours to maintain these estimates. Goods the subject of this contract shall be in all respects at the Customer's risk upon delivery being made and if the Goods are delivered by instalments, those Goods delivered by instalments shall be at the Customer's risk upon delivery of the instalment being made. Goods the subject of this contract shall be at the Customer's risk upon such delivery being made whether payment has been made or not made for those Goods or instalments thereof.

This contract contains all the Terms and Conditions under which the Goods are to be sold and any express or implied conditions, statement, representation or warranty, statutory or otherwise not stated herein is hereby excluded. No variation of these Terms and Conditions of Sale or representations bearing thereon will be binding on Chamton unless confirmed in writing by Chamton. Any warranties or Conditions statutory or otherwise as to quality or fitness for any purpose are excluded and the Customer relies on his own judgment. No Goods may be returned to Chamton without the prior written approval of Chamton being first obtained. If such approval is obtained the Goods concerned shall be returned to Chamton properly packaged so as to prevent damage in transit and within fourteen (14) days from the date of delivery. Chamton shall not otherwise be subject to nor incur and the Customer releases Chamton from any claim, action or liability including any expenditure, consequential loss or damage, loss of use or profits resulting from or by reason of any suspension or avoidance under this clause or faulty or defective original or replacement Goods, materials or workmanship, negligence or any act matter or thing done, permitted or omitted by Chamton. Any Goods approved for return to Chamton as aforesaid shall be the property of Chamton to dispose of as it sees fit.

6. CANCELLATION

In event of the Customer's death, insolvency, bankruptcy or winding up, suspension of payments, dissolution, or modification of proprietors or partnership, non payment for or non payment acceptance of any delivery, Chamton may cancel this contract or suspend or continue deliveries always reserving all rights to recover from the Customer any loss occasioned thereby. Cancellation of orders on whole or in part cannot be accepted without Chamton's consent in writing and then only on terms that the Customer will compensate Chamton for all work done and materials used to the date of cancellation and the loss of profit suffered by Chamton as a result thereof.

7. ASSIGNMENT AND FACTORING OF BOOK DEBITS

The Customer shall not assign, factor, transfer, enter into any forward sale agreement or otherwise dispose of its book debts to a third party without first obtaining the written consent of Chamton, which consent shall not be withheld unreasonably.

8. RETENTION OF TITLE, LIEN, PLEDGE AND TRUSTS

- It is expressly agreed and acknowledged by the Customer that the legal and equitable title to the Goods supplied by Chamton as described in Chamton's invoice shall not pass to the Customer unless and until all monies owed or proceeds received in respect to the Goods are paid to Chamton for the full amount of the Invoice (including any interest payable in accordance with Clause 2(b) hereof). In the interim, Chamton shall retain the legal and equitable title to the Goods, and the Customer shall take custody of and hold the Goods as the fiduciary agent and bailee of Chamton.
- The Customer may resell the Goods to the third parties in the normal course of trading, but only as a fiduciary agent of Chamton. Any such re-sale is to be a arms length and any right to bind Chamton to any liability to any third party by contract or otherwise is expressly negative.
- The Customer shall keep the goods separate from its own, property stored and identified, protected and insured.
- All monies and proceeds received, whether tangible, direct or indirect of any dealing with such Goods by the Customer for any re-sale, pending re-sale or utilization in any manufacturing or construction process, shall be held by the Customer in trust for Chamton, and paid into a separate bank account ("the Trust Account") with properly maintained records for the benefits and on behalf of Chamton for payment to Chamton in reduction of any monies owed by the Customer to Chamton until the liability to Chamton is fully discharged.
- The customer hereby appoints Chamton to be its lawful attorney and authorizes Chamton to appropriate any payments from the Trust Account to such Goods and accounts as it thinks fit, notwithstanding any directions from or appropriation by the Customer to the contrary.
- If the Customer becomes insolvent, commits any act of insolvency or bankruptcy, or defaults in any payment due by it to Chamton, Chamton shall have the unconditional right, without notice, to retake possession of the Goods and to enter upon the Customer's premises to retake possession of the Goods.
- Without prejudice to the right of Chamton at common law, any undelivered goods which are ascertainable as Goods and having been utilizes in any manufacturing or construction process and remaining upon the premises of the Customer, shall be subject to the retention of title clauses hereof, and be held in trust by the Customer as an agent and fiduciary of Chamton. Such Goods shall further be subject to a special and general lien and pledge for monies owing and due to Chamton for any indebtedness to Chamton from whatever cause by the Customer. If such indebtedness is not paid or otherwise discharged in full by the customer to Chamton within 14 days of receipt of notice from Chamton that it intends to dispose of the Goods, Chamton may, in its absolute discretion, take possession of the Goods and sell the Goods by public auction or private treat, and apply the net proceeds of sale towards reduction of the Customer's indebtedness.
- In the event that the customer uses, mixes or transforms the Goods in some manufacturing or construction process of its own or some third party, then the Customer shall:
 - Hold such part(s) of the proceeds of the manufacturing process as relate(s) to the Goods in trust and in a separate bank account for the benefit and behalf of the Chamton; and
 - Acknowledge that such part(s) of the proceeds to be held in trust for and on behalf of Chamton shall be deemed to equal in dollar terms the amount the amount owing by the Customer to Chamton at the time of receipt of such proceeds.
- For the purposes of the Clause & the term "proceeds" shall mean any proceeds or monies received by the Customer
 - For undelivered goods produced by the Customer manufacturing or construction process, and
 - Arising from the sale and delivery to a third party by the Customer of goods produced from the Customer's manufacturing or construction process, including (but not limited to) monies or payments howsoever received by the Customer from any sale of sales, which for the purposes of this sub-clause, are deemed to be held in trust for the benefit for and on behalf of Chamton in satisfaction and for the discharge of the Customer's indebtedness to Chamton.
- The Customer and Chamton acknowledge that some of the provisions of this Clause 8 are intended to constitute a trust between the parties whereby there is an obligation upon the Customer to create a trust of proceeds. Nothing herein contained shall be construed or deemed to create a legal or equitable charge on the goods, whether or not used, mixed, transformed or produced by the Customer in a manufacturing or construction process. Nor will the proceeds of sale of the Goods from a third party be construed or deemed to create a charge on a book debt.

9. CLAIMS

All claims under this contract must be made in writing and delivered to the registered office of Chamton and marked to the attention of the Manager of the Chamton within seven days from the date of delivery.

10. GENERAL

The Customer, when placing an order with Chamton (whether the order shall be verbal or written), shall be deemed to have accepted these Terms and Conditions of Sale (whether these Terms and Conditions of Sale appear on the back of an invoice or delivery docket or are otherwise brought to the notice of the customer) and if these Terms and Conditions of Sale (which shall only be varied or rescinded by written agreement executed by Chamton) shall differ in any respect from the Customer's order, then these Terms and Conditions of Sale shall prevail. This contract shall in all respects be construed as a contract according to the laws of the capital State of Victoria.
